Program Notice: The Tier You're On Includes The Tiers Below It.

SHOCKWAVE DEFENSE LLC

We are a certified small business that trains & prepares, individuals & groups alike how to prevent, prepare, and prevail in high risk/high stress situations. Whether at the office or in the field, our solutions work. Utilizing mental and physical empowerment we'll show you not only to survive, but to succeed!. We have a long record of proven past performance in delivering education and training in: self-defense, work place violence, weapons training, active shooter training, concealed carry; & more, all supported by team building, mental strengthening, empowerment, and leadership development skills.

Tier I

B.L.A.S.T

(Basic Learning of Awareness & Strategic Tactics)

Confidence is the first step in defending yourself. In order to have the confidence to identify a threat & avoid it, you must first have a basic understanding in awareness. Training to understand the environment, yourself under pressure, & the ability to recognize a threat, are all key to survival. In this entry level program students study the basics of stance, threat recognition, awareness & avoidance strategies, mental strength & fitness, and the skills necessary to survive an encounter if avoidance isn't possible.

Tier II:

Foundations & Fundamentals (Fighting Back)

It's in the foundation! It's where the strength lies to any structure, especially if it's going to be capable of withstanding an attack, or enduring stress of any type. The Foundations & Fundamentals Training equips the student with the key essentials of empty hand defense, knife utilization, firearms safety/basic handling, impact tools, & ground basics. Once completed with this ongoing series, students will have basic functional knowledge of how to move, strike, and utilize weapons.

Tier III:

Combat Ready

Learning techniques and concepts is a great way to understand movement and theory. Praxis; however, comes from drilling, & resistance based exposure. This high octane class will give the student both the exposure they need, & the confidence to make their training function in the following areas:

Home Invasion	Activating Effective Action
Break Away, Escape, & Evasion	Standing, Kneeling, & Ground Transitions
Urban Dynamic Movement	Functioning With Pre-Attack Indicators

Tier IV:

The Dynamic Warrior

Getting basic level certifications in training always helps the student progress with pride. As a certified professional lecture through The State of New Mexico, Master Johnson has designed multiple accredited training certifications that allow the student to understand everything from basic, intermediate & advanced, hand 2 hand, edged weapons, firearms, impact tools, & dealing with multiple opponents, etc. Classes include validation and testing instruments; and risk assessments are performed to ensure safety and, quality control. Our culture includes a real commitment to warrior ethos, & camaraderie.
